EELISA InnoCORE

EELISA InnoCORE Webinar and Panel Discussion ‘Gender Dimension in Research’
Date: 05 October, 2022
Place: online

This project has received funding from the European Union’s Horizon 2020 research and innovation programme under grant agreement No 101035811
EELISA InnoCORE Webinar and Panel Discussion
‘Gender Dimension in Research’

When: 05 October
Time: 10:00 to 12:30 CET
Registrations: https://short.upm.es/077nf

The aim of the workshop ‘Gender Dimension in Research’ will be to introduce researchers, engineers and academic staff to sex and gender analysis as factors that can affect the quality of research results, as well as to explain how and why sex- and gender-related issues can influence research and innovation decisions when setting priorities, designing studies, communicating results. Researchers from EELISA institutions will be telling us how they are integrating the gender dimension in their research work and sharing their experiences, opinions and best practices. The workshop will also include a presentation on the gender dimension requirements under Horizon Europe.

Target audience: EELISA Academicians and researchers as well as academicians and researchers from other university and research institutions, EELISA Communities, other European Alliances. Participation in this workshop is open to any interested participant.

| 10:00-10:05 | Welcome words  
| Sofia d’Aguiar, EELISA Executive Director |
| 10:10-10:30 | Gender and sex dimension of R&D - Overview  
| Inés Sánchez de Madariaga (UPM)  
| UNESCO Chair on Gender in STI, Professor of Urban Planning at Universidad Politécnica de Madrid (UPM), and Chair of the Advisory Group on Gender Issues to the Executive Director of UN-Habitat |
| 10:30-10:45 | Gender and sex dimension under Horizon Europe  
| Athanasia MOUNGOU (DG RTD)  
| Gender Sector Unit D4-Democracy & European Values, DG Research & Innovation |
| 10:45-11:00 | Q&A |
| 11:00-12:30 | Panel discussion  
| During the panel discussion we will be analysing various cases studies in various research areas and the different dimensions of gender and sex in research |

This project has received funding from the European Union’s Horizon 2020 research and innovation programme under grant agreement No 101035811

1. Sex dimension in biology and medicine  
Prof. Debora Angeloni (SSSA)  
Associate Professor of Molecular biology, and group leader of the Unit of Cancer Molecular Genetics, Institute of Biorobotics at Scuola Superiore Sant'Anna (SSSA).

2. Gender dimension and intersectionality in engineering  
Zsófia Pálya (BME)  
PhD student at the Faculty of Mechanical Engineering at Budapesti Műszaki és Gazdaságtudományi Egyetem (BME).

Alin Moldoveanu (UPB)  
Professor and Vice-dean at the Faculty of Automatic Control and Computers at Universitatea Politehnica din București (UPB).

3. Gender dimension of research as a factor shaping economy and society, and keeping stereotypes in the digital era  
Prof. Dr. İpek İlkkaracan (ITU)  
Professor of Economics at Istanbul Technical University (ITU), Turkey and elected President of the International Association for Feminist Economics in 2022-2023.

Eva Gengler (FAU)  
Candidate at the Friedrich-Alexander-Universität Erlangen-Nürnberg (FAU) and in the International Doctorate Program on Business and Human Rights.
