PARTNERS:

Vision:

Create a new value chain related to art heritage where organizations, as museums or foundations, can get financial benefits to increase research and conservation activities on masterpieces.

Mission

We will establish a market of new patrons that getting benefit from our product will invest in art pieces not in the free market.

Revenue model

Our model is an exclusive B2B-like platform where high ranked art investors and institutions can meet and exchange value.

Funding requirements

We already developed a POC and need now to create the market. For this our needs amount to approx 800k€. Funds will be used for technical development and for market creation.
