

# Study at İTÜ

Established in 1773, Istanbul Technical University (İTÜ) is building a unique vision of the future with its world-class studies. In recent years, our school gives more importance to areas such as R&D, innovation, education, international relations and digitalization. In this regard, we closely follow the information transformation around the world.

With **13 Faculties, 6 Institutes and 1 Vocational School** located in 5 campuses in Istanbul, İTÜ provides the excellency in higher education and pursues its mission by contributing to the development of engineering, innovation and art as a service to the nation and the world.

Istanbul Technical University (İTÜ) offers comprehensive support to its students across various domains. The Registrar's Office, International Relations Coordinatorship and the International Student Office, staffed by highly skilled professionals, are dedicated to assisting international students and academics in navigating their academic and social lives both at İTÜ and in Türkiye.

## Social & Extracurricular Activities

ITU offers students the opportunity to develop themselves in a wide range of areas with its culture, art and thought, sports and expertise clubs. In total, 71 of the 170 student clubs are culture, art and thought clubs; 34 are sports clubs, and 65 are expertise clubs, and activities in clubs and other extracurricular activities at ITU are reflected in students' transcripts as micro credits. In addition, ITU stands out in both national and global competitions with its 59 project teams.
